

BlackBerry 7520

for the Enterprise

Email and Data Combined with Phone – All-in-One

The BlackBerry 7520 Wireless Handheld™ provides a superior wireless email and data experience combined with built-in phone functionality in a single, integrated device. It allows mobile professionals to travel nationwide while still maintaining wireless connectivity to a full suite of applications including email, enterprise data, Internet, phone, long-range digital walkie-talkie and organizer. The BlackBerry 7520™ is a powerful handheld featuring speakerphone, GPS support for location-based services, Bluetooth® technology and ample memory.*

Enterprise Friendly

For enterprise and government organizations, the BlackBerry® 7520 works with BlackBerry Enterprise Server™ to provide users and IT departments with:

- Advanced security features
- Wireless “push” delivery of email and data
- Secure access to intranet and Internet based applications
- Single mailbox integration
- Attachment viewing
- Wireless email and organizer synchronization
- Remote address book look-up
- Centralized management and support
- And more

Like all BlackBerry devices, the BlackBerry 7520 can be centrally managed and supported by IT departments using BlackBerry Enterprise Server. In addition, the BlackBerry 7520 satisfies strict IT security requirements by leveraging the advanced security features of BlackBerry Enterprise Server.

Easy-to-Use

The BlackBerry 7520 features proven, award-winning BlackBerry “push” technology that enables email and information to be delivered automatically and effortlessly. Users can easily create and retrieve information using the optimized, PC-style QWERTY keyboard. The 33-key QWERTY keyboard provides a familiar typing experience, allowing users to quickly enter information using two-handed thumb typing. The BlackBerry 7520 also incorporates a bright, backlit and full color screen, easy-to-use navigation trackwheel and intuitive menu interface to optimize the mobile experience.

Powerful Features

The BlackBerry 7520 provides serious business users with powerful features, such as speakerphone, GPS support for location-based services, Bluetooth technology, ample memory and an embedded wireless modem.*

Imagine the Freedom

- Update customer account information in CRM systems while on the go
- Place orders and check inventory while in the field
- Access intranet information from the back of a taxi
- Send and receive email while waiting in an airport
- Set-up a meeting from the middle of a tradeshow
- Reach important personnel directly using the long-range digital walkie-talkie
- Initiate a spontaneous conference call using the built-in speakerphone
- Place calls from your car using convenient Bluetooth hands-free technology
